Orgone Masters-
Grounding Stones, Healing Crystals and Neodyne Magnets

More then Double POWER your ORGONE with a strong neodyne magnet and grounding stones. Instead of placing a penny on the bottom of the muffin tray, center a neodyne magnet (7lb pull min). Place the quartz crystal upright on the magnet with the female side (Flat/ cloudy) down. Coil the copper wire clockwise spin from female(flat) to male (point).. Add healing crystals (Rainbow colours ROYGBIV) to the bottom. Add a grounding stone so you don't have to bury the orgone to discharge it . Add copper shavings (stick to magnet) and then aluminum shavings. Position the crystal so it is standing upright. Do not add the magnet at any other time, since it will float to the side of the mold. Email danah@jrgenius.com, if you have any specific questions.

The Neodyne magnet sucks in the Dead Orgone Energy (DOR), collected by the metal shavings in the resin. Magnetically it draws in the DOR and converts it to Positive Orgone Energy (POR), as it flows clockwise up to the point (male) of the crystal. In a uniform, strong vortex fashion, the POR leaves the point and restores the life force (CHI) in the atmoshere, or person touching it. Negative energies are neutralized by this positive orgone force.

De-activate chip implants. Balance chakras with healing crystals. Place Master with magnet side down on chakras for balancing or secure it into position where you may have been chipped. . Hold Masters in palms with crystal facing the palm to add CHI to the body. Meditate.
