## Concern

It is becoming overwhelming apparent to many Canadians that our society is rapidly being transformed to one where the rights and freedoms we are born with are being unlawfully denied us. Torture, unreasonable search and seizure, brutality and other inhumane measures are often employed by our protectors in their procedures and undertakings.

Canada should be a nation where Freedom, Dignity and the Well Being of each of us should be guaranteed not disregarded. For the future and benefit of our children, We The Free People of Canada ask that all Police, Military and Others conduct themselves in the best interests of safety, life, freedom, health and property of each Canadian. When ordered to immorally deprive Canadians of basic Human Rights, Dignity, Essentials of Life, Freedom, Good Health we ask that you use your moral judgment and conscience to invoke your concern for what is truly right as opposed to simply following orders that may be un-necessary, cruel, evil, brutal or otherwise in bad faith or unlawful.

OATHKEEPERS
